

2/1/16

Katie,

just wanted to say thank you for your help with the Community Resource Fair/Point in Time Count. This count is essential in helping provide a better reflection of our community's challenges as opposed to last year's count of 23. This is a great partnership of volunteers, local government, community based services and non-profits.

The detailed maps you provided were the envy of the event and stood far apart from the others provided by neighboring cities.

The volunteers used your sectional maps to take into the field and were many times successful in locating encampments. On behalf of the Arlington Community Resource Center (ACRC) and the Police Department, Thank You!

Jonathan
