

MBR SYSTEM EQUIPMENT CONTRACT ASSIGNMENT

I hereby acknowledge that I have reviewed the Membrane Bioreactor (MBR) System Equipment contract documents contained herein, and agree to the Assignment of the defined "Buyer's" responsibilities under Phase 2 of said contract, as outlined in the terms of Article 11.02 of that contract's Agreement.

In all cases, the contract conditions specifically for the furnishing of the goods and special services defined within MBR System Equipment contract will take precedence over any real or perceived conflict with the contract conditions established between the Owner (City of Arlington) and Contractor (the undersigned) under the terms of the general construction contract identified herein as WWTP Upgrade and Expansion.

I also hereby acknowledge my intent to, at a time selected by the City of Arlington per the conditions of the MBR System Equipment contract; re-assign the "Buyer's" responsibilities back to them.
