

Division 0 – Bidding Requirements, Contract Forms, Contract Conditions Specification Guides Index

User Notes

- The date indicated in [brackets] next to each guide spec section is the "Last Revised" date - the date the text of a guide spec. section was last revised by the discipline coordinator, and this is the date that should appear in the guide spec section footer. However, the last revised date listed in this Index and in the guide spec. section footer may not match the date that appears on your computer screen directory listing, since sections are sometimes later revised for formatting reasons only. When changes involve formatting only, the last revision date is not changed (in the guide section footer or in the "Last Revised" column in this Index).
- The name of the discipline coordinator for each division is listed next to the division heading, italicized in parentheses. Exceptions are noted with names italicized in parentheses next to the guide specification section's last revision date. The division coordinator may elect to delegate sections or groups of sections to others.
- **This page provides links to KJ guide specs on your local "R" drive. Click the links to download a copy of the Word file. If you experience problems using this page, use Windows Explorer to directly browse to R:\GuideSpec... and locate the spec section you need.**
